PROJECT MANAGERS

CONSTRUCTORS

EastPoint is an expanding multi-disciplinary consultancy participating in a wide range of design, construction and development projects. Our firm has the capability of guiding a project through its entire lifecycle, from planning to implementation and operation and maintenance. We have earned a distinguished reputation for our technical and management expertise. We are currently seeking individuals to fill the following roles in our company.

- **Project Managers** with more than 15 years experience in developing long term client relationships and meeting challenging expectations.
- **Mechanical & Electrical Engineers & Technologists** with more than 5 years experience in mechanical and electrical design of Industrial, Commercial and Institutional Facilities.
- **Structural Engineers & Technologists** with more than 5 years experience in design of building and marine facilities.

Salary commensurate with qualifications, along with a premiere suite of benefits.

Only those being considered will be contacted.
